Pass/ Fail Cutoff (%)?

Hi there,

I track my performance in this course by % and am curious, before I attempt the Course Final, what the overall Pass/ Fail cutoff for the course is. 75% (90/120 points)? 80% (96/120 points)? In other words, how much will failure in the course final affect the chance to pass this course?

Thanks much!

Sonja Streuber

This is stated in the syllabus: "you must achieve a combined score of 80 (66%) or higher; to pass with distinction, you must achieve 100 (83%) or higher."

so for example, if you have got 70 from quizzes, you need 10 from the final to pass and a perfect score (30) to earn the distinction. If you have already got 80 from the quizzes, you already passed the course without taking the final.

so if I have got 76% from quizzes how many would I need to pass the final exam to earn the distinction.
